

WE ARE 100MEGA

The distributor who enjoys IT.

And this is our story...

100MEGA
DISTRIBUTION

WORDS OF THE DIRECTOR

„A work you don't enjoy will never make any sense to you and will never bring the desired results. Our job is not only business to us, it is also a mission and a fulfilling activity. These factors are also the reason we belong to the most sought-after ICT distributors in Czech Republic. We offer helpfulness, expanding products portfolio and strong brand marketing support to our clients. Our clients were able to rely on us in the past and they know they can rely on us in the future as well. We are 100MEGA, the distributor who enjoys IT. For more than 29 beautiful years already.“

Martin Zavřel
CEO 100MEGA Distribution s.r.o.

100MEGA IN A NUTSHELL

We always claim that we are the distributor who enjoys IT. And that's true. ICT distribution runs in our veins. Our offices in Brno, Prague, Ostrava, České Budějovice and Bratislava cover one of the largest distribution networks in Czech Republic and Slovakia.

To our clients, we offer a range of business activities in logistics, service, B2B, B2C and wide spectrum of marketing channels. Our portfolio contains more than 33 000 products. We do not base our company only on tradition. We are always up to date, forward looking and actively adjusting to the changes and requirements of the market.

We are the producer of HAL3000 - one of the largest PC brands in Czech Republic and the general partner of Czech National PC Games Championship. Esport is an industry we are fond of and we actively support its growth.

By joining with i4wifi and ASM in 2018 we extended our portfolio with extended distribution and services for complex telecommunication systems.

Complexity of services, professionalism, and expertise are the Alpha and the Omega of our activities. In our work, we value tradition and also have no fear of trying new things.

100MEGA OF NUMBERS

33 000+ products

30 year of experience

5 own brands

90+ brands in distribution

100+ brands in sub-distribution

240 000+ produced and sold PCs

100MEGA OF FACTS

- **B2B portal** – thanks to our constant contact with you we know what you are looking for, expecting and what you need. Our eshop is a part of a large B2B (and B2C) portal which we develop according to your current requirements. Advanced filtering for maximal convenience of your purchase and strict security rules are a matter of course. Our platform development never ends, and we are still adjusting it according to your needs.

- **In-house marketing agency** – we perform all marketing activities for you directly in our company. Thus, we ensure effective communication, lower costs and an always extending portfolio of marketing activities.

- **Modern logistics** – we have our own storehouses with area of hundreds of square meters. Our partners receive the goods in 24 hours and we also offer personal takeover at the same day.

- **High quality and always accessible information** – our eshop is taken care of by the technical support department which keeps all descriptions and product images up to date. Eshop provides advanced filtering for convenient search.

- **Our own B2C solution** – we offer our B2C eshop to our partners as a service for ensuring of complex goods delivery to their end customers.

100MEGA OF DATES

100MEGA
is born

1991

HAL3000
production started

2001

HAL3000 becomes the
general partner of MČR

2012

joining of ASM
and i4wifi

2018

HAL3000

We are experts on computers and gaming. Mainly because we are fans ourselves. Our HAL3000 brand born in 2001 is dedicated to the goal of delivering reliable, tested and precisely designed PCs across the whole customer spectrum. We produce PCs for office as well as hi-end gaming machines branded with the MČR logo. We are the general partner of Czech National PC Games Championship (MČR) and each year we deliver hundreds of PCs made specially for this event.

The brand is regularly talked about in media, TV and on social networks.

Recently, we have started working with several influential youtubers and gamers from the Czech Republic who help us to promote the essential idea and mission of HAL3000 – **HRÁT JAKO VÍTEZ.**

PLAY AS A WINNER

We consider esports a modern branch which deserves a lot of attention. With HAL3000 we have contributed to the development and support of the local esports scene since 2012. We do so as the general partner of the largest event of this kind in Czech Republic – Czech National PC Games Championship (MČR) – organized by the PLAYzone agency.

HAL3000 delivers hundreds of PCs for this event each and every year and also runs its own gaming zone. MČR is annually attended by more than 50 000 fans of gaming, esports, and digital entertainment in general.

Thanks to this cooperation, HAL3000 releases a new series of gaming PCs branded as the MČR line. These are premium machines which become deadly weapons on online battlefields in the hands of experienced players.

JOINED FORCES

With the growth of 100MEGA we have always faced new challenges. So, in 2018 the company met an important milestone. 100MEGA joined its forces with two established and specialized companies.

ASM

Our vision was to create distribution with added value of complex presale and aftersale services. Joining with ASM was an obvious and logical step. Since 1991, our colleagues at ASM have been perceived as professionals regarding import and distribution of data and communication networks technologies. With the fusion with 100MEGA, ASM extended its portfolio and 100MEGA extended provided services.

i4wifi

Expertise, professionalism, quantities of knowledge and experience shared. Since 2003, i4wifi company has been a wholesale distributor of wireless, metallic and optical connections. They organize regular workshops (not only) for RouterOS Mikrotik, Ubiquiti or GPON systems. During all those years, our colleagues have trained more than 7000 IT specialists. The company provides technical support for their clients mainly for the RouterOS Mikrotik. During those 15 years, our colleagues have never faced a request they could not solve, and this is also the reason why i4wifi technical support is so highly acclaimed.

AND AS TIME FLIES...

This is where our introduction ends, however, our story does not. You can also become a part of it!

Sell more than 33 000 products of many prestigious brands with us. Use the services of our sophisticated logistics and storages in Brno and Prague. We will support your sale with interesting promotion campaigns and gifts for purchases and we provide you with our (almost no maintenance) B2C eshop solution.
